

**11th EUROPEAN
KARATE
CHAMPIONSHIPS
FOR REGIONS
MONTENEGRO 2013
8-9 JUNE**

Herceg Novi, EKF Regions 2013

These 11th European Karate Championships for the Regions in Herceg Novi, Montenegro, are surrounded by great expectation after the very successful experiences of the previous editions of these Championships, that have been continuously increasing in size and in quality since its first edition in 2003.

The unique opportunity for all European Regions to compete under their own name, flag and personality in an official sport event makes these Karate Regions Championships a rather singular and attractive activity, bringing to the reality an historic aspiration that has proved to meet so many expectations.

Also, the fact that the organisation of the event will be run by the Montenegro Karate Federation is a guarantee of quality and well doing. All European karate will travel to Herceg Novi and will also have the opportunity to close ties with the Montenegro karate.

This 2013 edition continues counting with the incentive of a new format, with a rather imaginative and successful proposal implemented in 2010 that includes the youth categories from 14 to 17 years.

In the name of the big European Karate family, I want to thank you for your inestimable contribution. Be sure we all will enjoy unforgettable experiences around karate in Herceg Novi.

Yours sincerely,

Antonio Espinos
EKF President

MNE - Montenegro

1000 Facets of the Kaleidoscope –The Wild Beauty at The Southern Adriatic

“Black” mountains, blue sea, green alpine meadows, awe-inspiring canyons, idyllic lakes

A universe in a nutshell – far apart from the beaten tourist tracks. A re-discovered paradise opens up to its guests.

Holiday at the seaside with lovely beaches, hidden coves, fascinating small historical coastal towns with modern flair: yes, naturally! You may choose from cosy quarters in a hospitable private home to international 5-star hotels with the complete wellness programme. The gastronomy offers delicious regional specialities as well as international classics. Hiking on marked trails, through majestic mountain massifs with spice-scented meadows; discover the boundless high plateaus on a mountain bike; white-waters, the awe-inspiring canyon (Europe’s deepest) of the river Tara, a hot spot for rafters! Eerie caves and ravines where bears and wolves may hide (and maybe goblins and fairies): yes, naturally! National parks appeal to all nature lovers. Montenegro already has four very distinctive ones and will soon have six. For instance Biogradska Gora, the wildly romantic primeval forest, which you can explore on an easy trail. Or the area around Lake Skadar, Europe’s largest bird sanctuary. With this and many other measures our country endeavours to fulfil the article of our constitution as an “Ecological State”. Growing areas of our land are being established as nature reserves and protected by law - naturally!

Historical treasures from the earliest settlements to the Njegoš Mausoleum on top of the mountain Lovcen: yes, naturally! Our varied history left its tracks from the Roman buildings that are still used as venues up to the fortifications built by the Habsburg realm

– with a breathtaking view of the unique Bay of Kotor with its fascinating heart. Follow the Adriatic coastline south to the charming medieval village Budva and to the largest beach near Ulcinj; there is a lot waiting to be discovered. But we would like to induce you also to explore the interior of the country: the historical royal town Cetinje is just north of Budva. A very interesting excursion would be a trip to the Ostrog Monastery, where miracles are said to happen even today.

And you ought to meet the Montenegrin mountain people, too. Throughout our diverse history they learned to valiantly repulse invaders of all kinds – and to receive welcome guests with genuine hospitality. Do look them up in the scattered alpine cottages and experience a visit to friends.

Who will enjoy a holiday in Montenegro? Sunbathers and beach runners, adventurers and discoverers, fans of day- and nightlife, nature lovers and people looking for places of spiritual power: as a matter of fact, everybody.

Herceg Novi

General data

Archeological findings from Luštica witness the beginnings of the civilization in this region, back from the Neolithic and early bronze age. Evidence of humans living in Herceg Novi dates from its first known inhabitants – Illyrians.

Commercial opportunities attracted Greek traders in the 5th century B.C. In the 3rd century A.D., after defeating Illyrians, Roman Empire took over this region. After the fall of the Western Roman Empire, in 476, Byzantium ruled for six centuries. In the 7th century, the Slovenian tribes densely inhabited this region and around the area of today's Herceg Novi, the Dračevica parish was formed. Already from the 10th century, Dračevica loses its independence, becoming the pray of the Zeta dukes, but not for long because the period of the *Nemanjić* family was coming. Upon the death of Czar Dušan, Dračevica was governed by duke *Vojislav Vojinović*, and later on by the Balšić family.

The city of Herceg Novi was founded in 1382, when the Bosnian ban (provincial lord) King *Tvrtko I Kotromanić* instituted it in the Bay of Topla, with an intent to give it a commercial, maritime and craft role, and named it Sveti Stefan (St. Stephen).

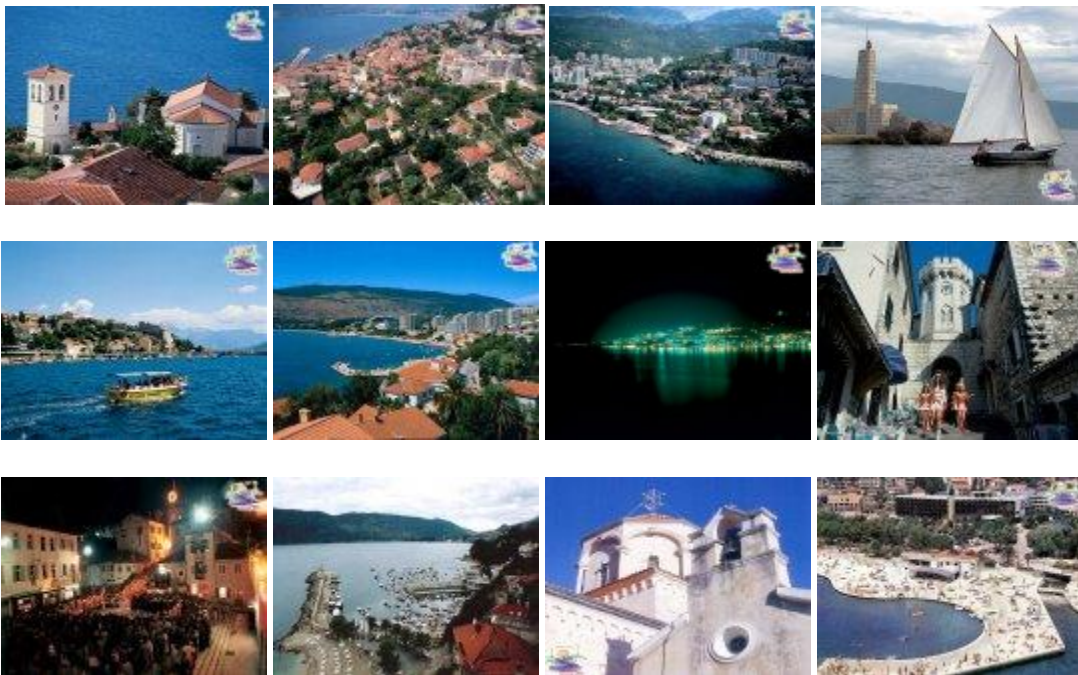

As one the youngest cities on the Adriatic coast, it was called Novi (New), Castrum Novum, Castel Nuovo. It acquired its current name during the reign of Herceg (Duke) Stjepan Vukčić Kosača, when the city experienced its greatest progress. The Turks conquered it in 1482 and, with a short pause between 1538 and 1539, when it was overtaken by the Spaniards, they ruled for about 200 years up until 1687.

Austro-Hungary controlled Herceg Novi until 1806, Russia for a year between 1806 and 1807, and France between 1807 and 1813. Even the temporary government of Montenegro and Boka Kotorska had control over Herceg Novi between 1813-1814. However, the city was under Austro-Hungarian control until 1918.

Henceforth many nations and civilizations dwelled on its soil, leaving deep traces on its history, culture and overall development. After the Turkish rule, the city was conquered

by the Venetians, who reigned until the end of the Venetian Republic in 1797. From then on, there were frequent changes in the administration of Herceg Novi. The Austrians ruled until 1806. Hereafter, the administration was overtaken by the Russians, until 1807, and then the French governed until 1814. In the period from 1813 to 1814, the city was temporarily administered by the government of Montenegro and Bay of Kotor. From 1814 to 1918, the city was under the Austro-Hungarian administration.

Then the Serbs, Croats and Slovenians united to form a kingdom, somewhat later called Yugoslavia, and in 1923, the Bay of Boka precinct was annexed to it. In 1941, the city was occupied by the Italians, then the Germans, until the liberation on **October 28, 1944.**

Geography

Herceg Novi is located at a strategic and attractive geographic area between the highest mountain of the Dinara massive, Orjen (1,895 m) and the entrance of one of the most beautiful bays in the world, the Bay of Kotor (Boka Kotorska).

It represents an administrative, economic and cultural center of the municipality, covering an area of 235 km² with 30.992 inhabitants.

Climate

The area of the Bay of Kotor is characterized by a Mediterranean climate with dry and warm summers and mild winters. Herceg Novi has a specific microclimate, which is a result of southern exposition, proximity to the sea, limestone substratum and mountainous hinterland which prevents the breakthrough of cold air masses.

Herceg Novi has approximately 200 sunny days per annum. In July and August there are approximately 10.7 sunny hours per day

Average annual temperature is 16.2 C (similar to Mediterranean cities of Naples and Lisbon).

The average temperature in June is 25 degrees in Herceg Novi.

There are frequent slight temperature oscillations, thus, the average daily temperature fluctuation is only 4 C. Average temperature from May to September is about 25 C, which provides a swimming season over 5 months long since the average summer sea temperature is rather high, between 22 - 26 C.

The annual average precipitation is 1,930 mm/m², and relative air humidity is at its highest in the fall reaching 80%, and its lowest point is in the summer, i.e. 63%.
